Venus Viva Pre/Post Care Instructions

Who is a Candidate?

- Safe on all skin types, regardless of age or color
- Patients with acne scars, fine wrinkles, and surface irregularities of the skin
- Patients with loose skin who would like a tightening and lifting effect
- Patients who desire a smoother appearance and tightening of their skin
- Patients looking to improve in the tone and texture of their skin

Prior to Treatment:

- You will be contacted by Custom Scripts (\$42.50) regarding the topical anesthetic, which will be shipped directly to you. If you do not hear from Custom Scripts, please call them directly at 800.226.7094.
- The day of your treatment, please arrive with only your topical on your face (no makeup). Apply topical anesthetic 1 hour prior to your service to the entire area to be treated.
- If you have a history of cold sores, obtain a prescription for an antiviral from your physician.

Post Treatment:

After your Viva treatment, please be aware and observe the following:

- The skin is red and warm which will resolve in a few hours to a few days depending on the strength of the treatment. The degree of redness and mild irritation will vary.
- You may elect to purchase camouflage makeup, which can be applied after 24 hours.
- We have a post-procedure kit available for purchase (\$98), if you elect to not purchase the recommended products make sure that you have our provider review the products you elect to use.
- 2-4 treatments scheduled 4 weeks apart are recommended for optimal results.

Post- Instructions:

- CLEAN – Use a gentle cleanser or face wash with tepid water to cleanse the face for the 48-72 hours after the procedure and gently dry the treated skin. Always make sure that your hands are clean when touching the treated area.
- HYDRATE – Following your Viva treatment, your skin may feel drier than normal. Use an appropriate moisturizer that does not irritate the skin.
- MAKEUP – It is recommended that makeup *should not be applied* for **24 hours** after the procedure. Use a clean makeup brush or sponge, to apply makeup to limit the potential of infection.
- PROTECT – Immediately after the procedure wear a hat, avoid the sun. After 24 hours apply a broad spectrum UVA/UVB sunscreen with a SPF 50. A chemical-free sunscreen is highly recommended.

Name _____ DOB _____ DATE _____

What to Avoid:

- For at least 24 hours post treatment, do NOT use any Alpha Hydroxy Acids, Beta Hydroxy Acid, Retinol (Vitamin A), Vitamin C (in a low pH formula) or anything perceived as ‘active’ skincare.
- Avoid direct sunlight for 24 hours. No tanning beds.
- Do not go swimming for at least 24 hours post-treatment.
- No exercising or strenuous activity for the first 24 hours post-treatment.

Please initial the following:

History of keloid scarring ___ Yes ___ no History of bleeding disorder ___ Yes ___ no

History of hyperpigmentation ___ Yes ___ no History of auto-immune disorder ___ Yes ___ no

Please seek medical attention if you have any signs of infection such as fever, increased redness, pain and/or drainage.

Please be Aware:

If you do not arrive with your topical applied your appointment may be canceled, or subject to change. All appointments are secured with a credit card or payment may be requested prior to the scheduled appointment. Any appointment not cancelled or rescheduled prior to 24 hours notice will result in a full charge. No refunds are given for services rendered or products sold. If you are dissatisfied for any reason please notify us within 48 hours of your appointment to discuss.

I have read this form to the best of my knowledge and will inform my provider if any change in my medical condition occurs. I understand all procedures that are performed are for cosmetic purposes only. Results cannot be guaranteed as every individual responds differently.
