YOLO Waxing Information:

Important recommendations:

Please speak to the Therapist

- if you have taken Accutane or Retin A in the past 6 months
- if you have a skin irritation or a sunburn
- if you are prone to fever blisters
- if you received a Laser treatment or a chemical peel on the area in the past 6 months
- If you are within 5 days of receiving a microdermabrasion treatment
- if you have received a daily retinoid topical treatment on the area in the past 3 months.

Pre-waxing instructions:

- Please shower before a bikini wax
- Do not shave; hair should be at least 1/6 inch long
- Trim long bikini hair
- For decreased sensitivity, you may wish to consume a potassium rich drink or fruit (banana, orange juice)
- Avoid stimulants
- Receive the waxing service a few days in advance if you are preparing for a vacation or another special event, as skin may appear pink after waxing.

Post-waxing instructions:

It is common after waxing for skin to react and “break out”, this most commonly occurs on the face, back, and chest. To

**decrease the likelihood of this happening apply a preventative
acne control solution for 5 or more days after the service**

- Stay out of the sun for a day or two
- Apply a soothing gel every day

In order to receive "maintenance" pricing please schedule your next waxing service prior to 4 weeks.

Thank You,

Nikki Rasmussen, RN/owner
